

14th Feb '03.

Hello! It's me Viral, writing to you, along with your reminder. It's been more than eight months that we all were together at Asia Plateau. In next few months we all will meet again at Asia Plateau for this year's youth camp. I invite you to come again to Asia Plateau for the youth camp and re-live the experience.

I am sending you the letter written by you in your own hand-writing. I am sure it will be some experience to read your own reminder and the promise that you had given to yourself when realisation had dawned upon you in one of the morning Quiet Time.

The reminder will take you back to the youth camp days. Read your letter and close your eyes; I am sure from by- some you will be able to visualise the time spent at Asia Plateau. The reminder written by you was something that came from within and was put on the paper, if you are walking on that path, there will be deep satisfaction and internal peace, but if not, then this letter is a wake up call, you have lost focus, this reminder will help you to re-look; We human beings are prone to laziness and we constantly buy time, but we do not realise what we have lost in the bargain.

I wish you good-luck and may God Bless all of us. Hope to see you at this year's youth camp.

Regards to your family.

Bye.

VIRAL
