

11 January 2017

Like every year the last days of December was spent at Asia Plateau [AP] reflecting in silence and the new dawn of the coming year was welcomed with good thoughts and prayers towards all by welcoming the first rays of rising sun, sitting in the arena of Billimoria school ground.

Wishing you happy New Year and the year brings freshness in thinking and one could achieve all that lies within for long.

During our stay at AP we were thinking and planning towards the coming youth conference [YC] in June 2017. This will be the 23 addition of lofC-LMAD and in all these years we have not been able to scale the strength above 300 participants. Same LMAD in regional gatherings very easily cross 500 mark and few times close to 700. Need your thought, suggestion and help in scaling the YC at AP.

One of my thought is that if each individual who has gone through the LMAD experience inspires two or three people in their neighbourhood, family circle, peer groups, friends, work place and study circle I am convinced we will be able to scale the coming YC. Do give a thought and work towards it. Speak to young people of this beautiful idea of listening and listening to none other than your own inner self. Let your own story of change be an inspiration to the young listener which will inspire her/him to be at AP for those eight days embracing life changing moments which unfolds naturally.

Your contribution in the form of inspiring young people to come for the June Lmad conference will add value to the work that we are doing.

Like always the dates for the YC are from 1-8 June, we have made a slight change in the closing hours on 8 June. Instead of closing the YC at lunch collectively we have thought to close the YC by tea time, 4.00p.m. Rest all remains the same.

LMAD belongs to each one of us take the ownership. Your suggestion and thoughts are valuable; do share to scale the overall LMAD experience.

The attached application form and the brochure gives complete detail of LMAD.

The entire youth team of lofC-LMAD sends this message.
