

Survey - A Summary

LMAD National Youth Conference 2022

Why did we conduct this survey?

- The youth is constantly getting influenced by various factors and are not scared to try different habits which define today's generation
- We really wanted to understand and gauge today's landscape and allow you to tell us what direction are we headed in.
- The results of the survey have given us a vital insight into the current mindset and prevailing trends among the youth and enriched LMAD as a whole.

155

Total Participants

53%

Male Participants

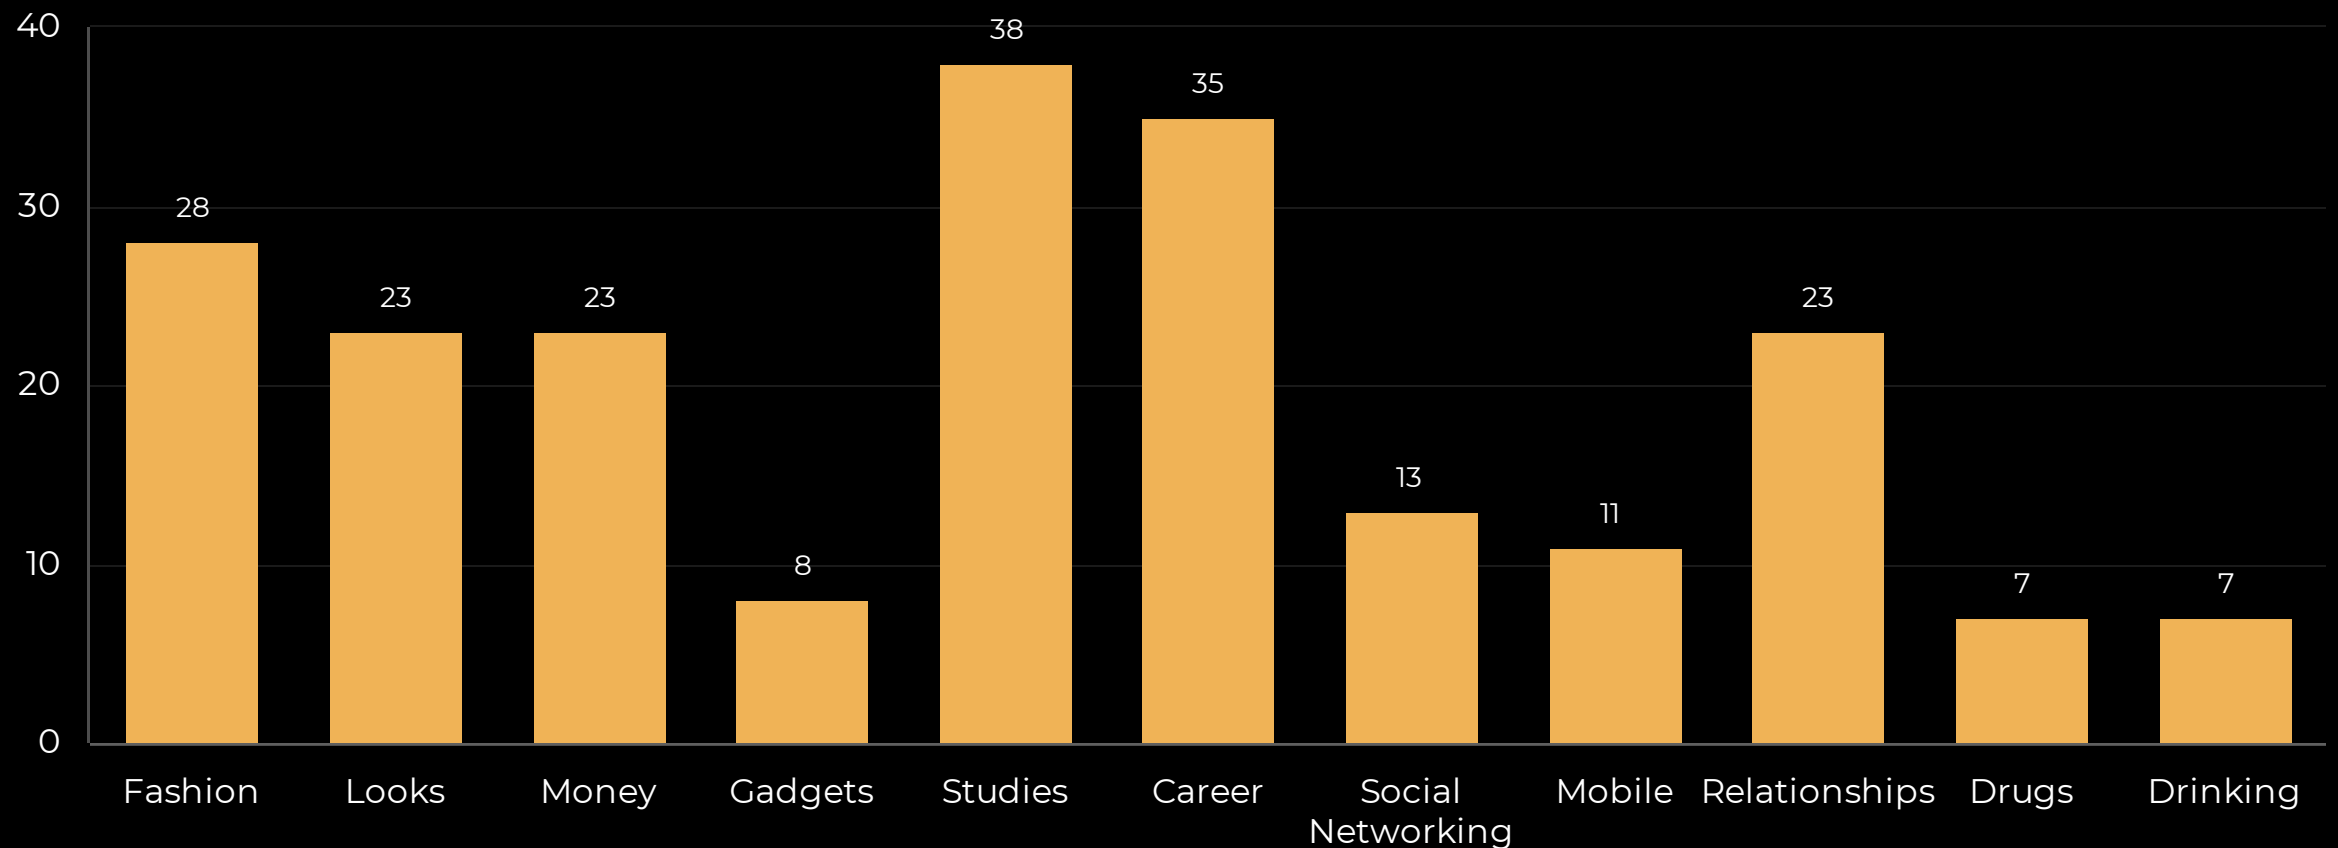

47%

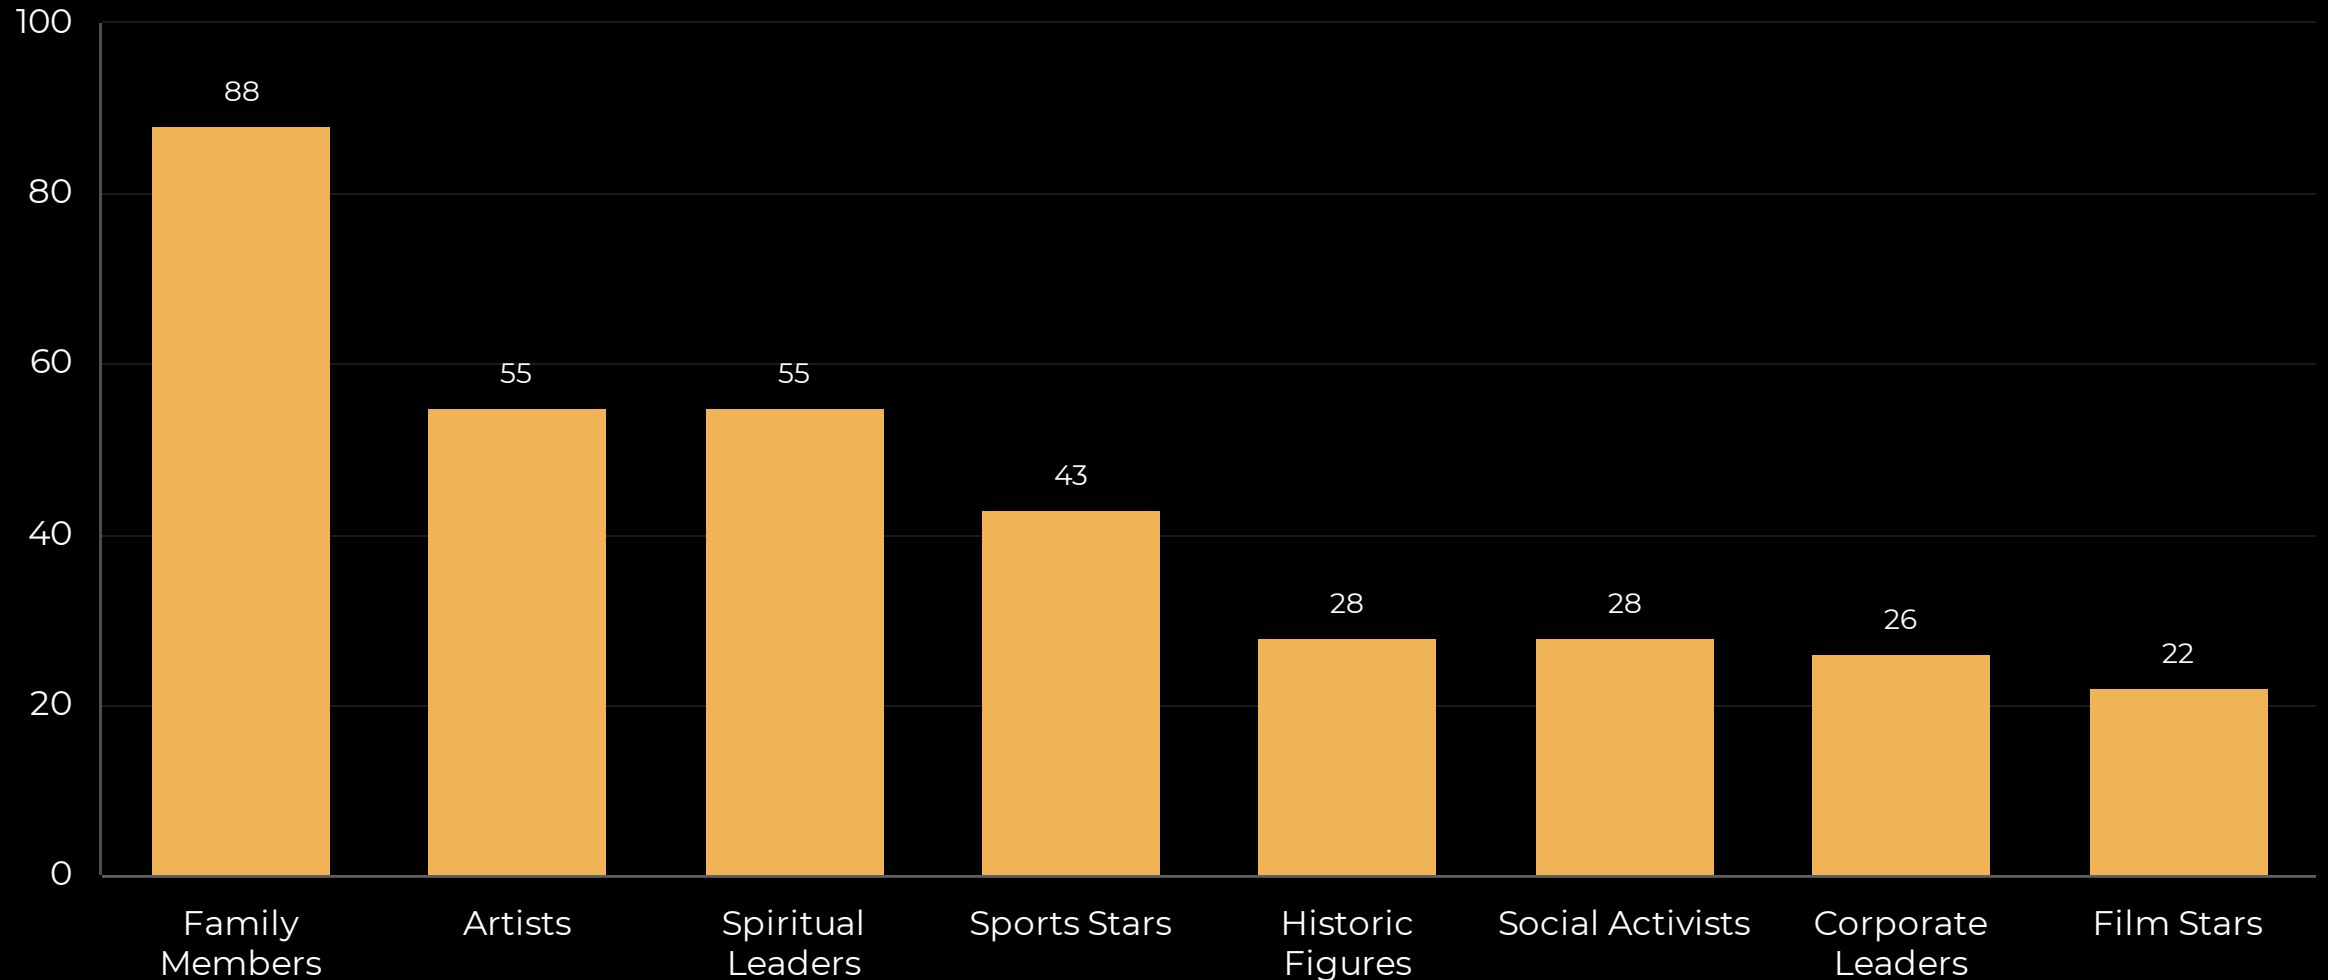

Female Participants

57% of the participants are **not** affected by peer pressure!

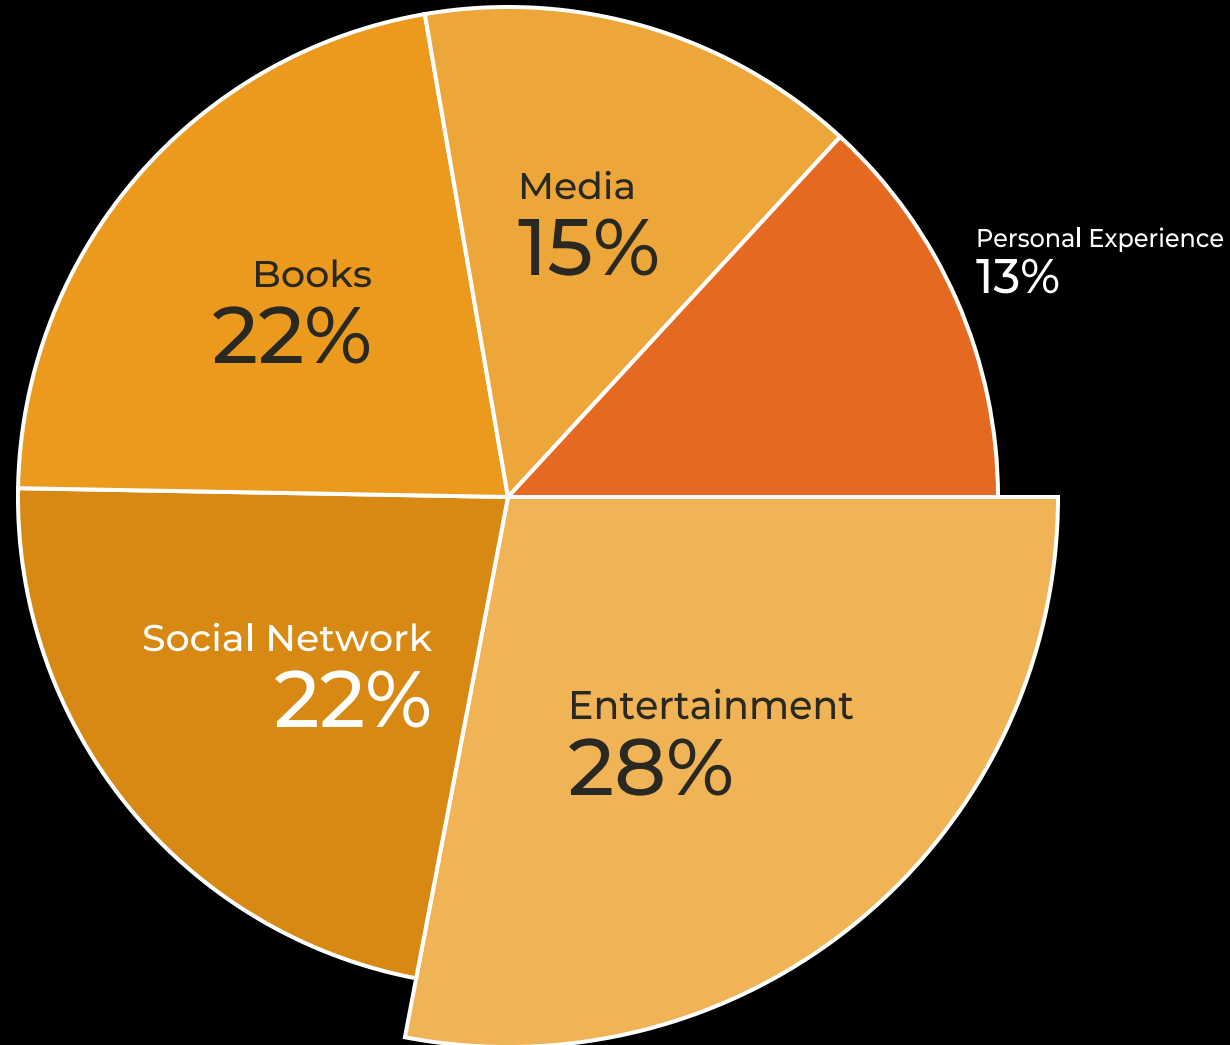

Here's a look at in what areas does peer pressure affect the rest of the participants -

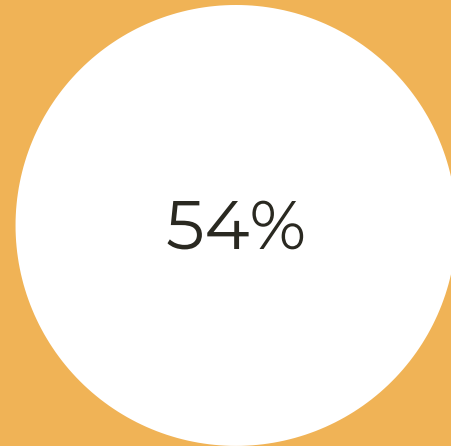

Who are your role models?

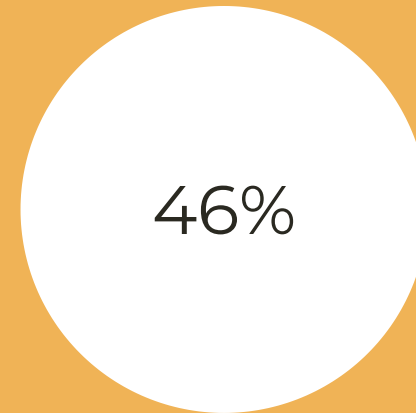

What do you get influenced by?

Do you find it difficult to make decisions?

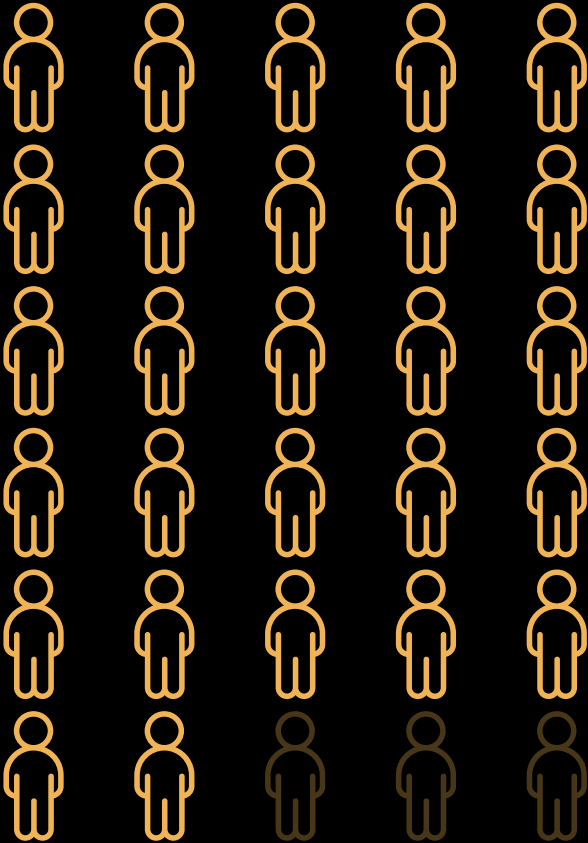

Yes

No
